

CHARLES (CHUCK) ROACHELL

OWNER AND PRESIDENT, C2C TECHNICAL SERVICES

Chuck's 20+ year career in critical facility support spans every facet of industrial I&E work. With experience in both Engineering and Construction departments, Chuck's expansive background includes control system design, the scope of work creation, and direct management of I&E design teams to lead client TAR & commissioning processes. Chuck's singular focus in starting C2C was to leverage his wealth of experience to lead a team of professionals who quickly understand and exceed customer needs. His uniquely qualified skillset continues to distinguish C2C's performance today.
